

World Sea Grass Day: 1st March

World Seagrass Day 2025

Date: March 1, 2025

**Theme: Harnessing Seagrass'
Carbon Sequestration Potential
Against the Climate Crisis**

Why Seagrass Matters

- **Carbon Sink:** Seagrass meadows cover only 0.1% of the ocean floor but can store up to 18% of oceanic carbon.
- **Biodiversity Hotspots:** They provide habitat and nursery grounds for marine species like fish, seahorses, and turtles.
